Professional Summary

Full Stack Developer with 1+ year of proven experience architecting and deploying scalable, production-grade web applications. Specialized in end-to-end MERN stack development with strong expertise in backend API design, database optimization, and responsive frontend implementation. Demonstrated ability to improve system performance by up to 40% through code optimization and efficient database query design. Skilled in building RESTful APIs with secure authentication, implementing complex business logic, and creating user-centric interfaces. Committed to clean code principles, best practices, and collaborative Agile development.

Technical Skills

Languages: JavaScript (ES6+), C++

Frontend: React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, bcrypt, Middleware Design

Database: MongoDB, Mongoose, PostgreSQL, MySQL, Schema Design, Query Optimization

Tools & Technologies: Git, GitHub, Postman, Prisma ORM, VS Code

Core Concepts: Data Structures & Algorithms, API Design, Database Optimization, Clean Code, Agile Development, Full Stack Architecture

Professional Experience

VSN International Pvt. Ltd.

Dec 2025 – July 2026

Full Stack Developer

On-site / Indore

- Architected and developed scalable web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and implemented production-grade REST APIs with comprehensive validation, error handling, and authentication.
- Built responsive, user-friendly frontend interfaces using React and Tailwind CSS with focus on optimal UX.
- Optimized backend services and database queries, improving scalability, performance, and system reliability.

Civilytix

Oct 2024 – Nov 2025

Full Stack Developer

Remote/Indore

- Built and maintained scalable full-stack applications using React.js, Node.js, Express.js, and MongoDB.
- Developed and integrated 15+ REST APIs with intelligent error handling, reducing response time by approximately 30%.
- Implemented secure authentication and authorization mechanisms using JWT tokens and bcrypt encryption.
- Optimized database queries and backend logic, significantly enhancing application performance and user experience.

Manishit Technologies Pvt Ltd

Jun 2024 – Sep 2024

MERN Stack Developer Intern

Indore, MP

- Developed end-to-end full-stack applications using MERN stack in a collaborative Agile environment.
- Designed and implemented 12+ REST APIs with comprehensive validation, authentication, and error handling.
- Improved API performance by approximately 40% through strategic database indexing and query optimization.
- Actively participated in code reviews and collaborated with senior developers to maintain high code quality standards.

Key Projects

GOD API – Universal API Gateway Platform

2025

Scalable Full Stack API Gateway System | GitHub

- Engineered a robust, scalable API gateway enabling unified access to multiple third-party APIs through a single API key.
- Designed comprehensive RESTful APIs with intelligent request routing, OAuth authentication, and provider abstraction layers.
- Implemented secure credential management using encrypted storage and advanced token-based authentication mechanisms.
- Built responsive management dashboard frontend with real-time data visualization and analytics capabilities.
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, REST APIs, OAuth, JWT, PostgreSQL

SmartCare – Patient Appointment Platform

Feb 2025

Role-Based Healthcare Management System | Live Demo

- Developed comprehensive role-based healthcare system with appointment booking and complete medical records management.

- Built secure REST APIs with JWT authentication and complex business logic for intelligent appointment scheduling.
- Designed responsive, intuitive React frontend with Tailwind CSS for optimal user experience across all devices.
- Implemented separate patient and doctor dashboards with real-time data synchronization and notification systems.
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

Education

Medi-Caps University <i>Master of Computer Applications (M.C.A)</i>	2023 – 2025 <i>Indore, MP</i>
LT. Savita Devi Jaiswal College <i>Bachelor of Science in Computer Science</i>	2019 – 2022 <i>Shyamgher, MP</i>

Certifications & Achievements

- Deloitte Technology Job Simulation – Forage (2025): Full stack development, data handling, and problem-solving.
- MERN Stack Bootcamp – Udemy (2024): Comprehensive full-stack web development training and practical projects.
- JavaScript Algorithms – freeCodeCamp (2023): Advanced JavaScript fundamentals and algorithm optimization techniques.
- AIR 1078 in NIMCET 2023 among 20,000+ candidates for Master’s program admission.
- Selected as Top Intern for consistent sprint delivery, problem-solving ability, and exceptional code quality.
